Dear Students

Further to the email sent to you regarding the minor changes to the workflow for operation and supervision of Work-Integrated Education (WIE) of the EIE Department dated 11 April 2018, please be reminded that as you are non-local students who need student visas to study in Hong Kong, **you are only allowed to take up study/curriculum-related internship as arranged or endorsed by the Department for up to one year**. This is stated on the “No Objection Letter” (NOL) issued by the Immigration Department which you should have got one at the time of your entry to the programme and will be informed to collect the renewed one(s) annually when you are studying in the programme.

You may contact me or Ms Sandy Tong of the EIE General Office (ensandy@polyu.edu.hk) if you have any questions on the above.

Regards
Dr Frank H.F. Leung
